Bring the Oklahoma AITC Ag Magazines To “Life”

Teachers and Parents, your students can add a new dimension to the Ag Magazines using Augmented Reality and the Aurasma app. They can now scan the pictures in the magazines and view videos and other graphics related to the magazines.

How to Participate with AITC using Aurasma:
1. You must have a smart phone or tablet
2. From your “app Store” or “Google Play,” search for and download the app called AURASMA.
3. Open the Aurasma app
4. You will see Aurasma’s welcome screen. At the log in screen you can choose to SKIP login.
5. You will see that your camera is activated and there is a triangle A at the bottom- click on it.
6. The Explore tab will open. Click on the magnifying glass at the bottom and search for OAITC
7. You will see the Oklahoma AITC logo with a green background. Click the logo.
8. Click “Follow” to follow the Oklahoma AITC Aura channel.
9. Select the camera icon at the bottom center of the screen (small square) to activate camera.
10. You are ready to scan ANY picture in the Oklahoma AITC “Ag Magazine” or “Specialty Crops Ag Mag” and bring the picture to “life!”

  a. Hold your device over the picture you want to scan.
  b. You will see a white “target” showing that a video or picture is loading.
  c. When the video or picture appears, double tap them to make them go full screen. At that point, you can move the device away from the magazine.
  d. Double tap the video or picture to make them disappear so that you can scan the next magazine image.
